Subject: **Genuine Neapco High-Angle Interaxle Driveshaft KITS**

To: **All Neapco Drivelines Aftermarket Group Customers**

Neapco is pleased to announce the release of our new Genuine Neapco High-Angle Interaxle Driveshaft Kits for Half-Round 1710 series applications.

Just ONE part number will allow you to build any one of more than 100 OE part number applications.

Neapco Interaxle Driveshafts Kits include everything that is needed to build the interaxle driveshaft and the high-angle weld yoke (up to 45°) is already factory welded to the tube to save time in your shop. Simply cut the tube to length and complete the remaining assembly process.

Kit contents include:

Part Number	Description	Qty
6-0675	Genuine Neapco 1710 Series U-Joints with strap kits	2
Pre-welded Assembly <i>Assembly is not sold separately.</i>	<u>Pre-welded Assembly consists of:</u> N6-28-467 - Genuine Neapco High-Angle Weld Yoke ND32-30-72-xx- 10" piece of 4.095 x .180 DOM Tube	1
N6-40-521	Genuine Neapco Stub Shaft	1
N6-3-3441KX	Genuine Neapco High-Angle Slip Yoke	1

Designed, engineered, and manufactured to industry OEM standards, Genuine Neapco High-Angle Interaxle Driveshaft Kits are an economic alternative to stocking dozens of OE Interaxle driveshaft assemblies.

To learn more, please visit NeapcoAftermarket.com and NeapcoParts.com or contact your Neapco product sales representative. Pricing is available in your price file on NeapcoParts.com.
