## Subject: Neapco Sales Regions and Key Contact Updates for 2024

To: All Neapco Customers

As part of Neapco's ongoing initiative to improve efficiency and bring optimal value to our customers, we have made changes to our sales regions as well as other internal functions and contacts.

Please find below our Neapco Key Contacts and Ordering Information update for 2024. You will notice some states have been reassigned a new sales representative, so we have listed the contact information of each representative for your convenience. While each representative will reach out to their new accounts for introductions please contact them directly if you have an immediate need or concern.

We look forward to a successful 2024 and appreciate your continued support of the Neapco brand and components.

Kindest regards,

Chris Youngs

National Sales Manager - Neapco Drivelines Aftermarket Group
