Subject: **Beatrice Warehouse RESET November 22-24**

To: **All Neapco Drivelines Aftermarket Group Customers**

Please note that our Beatrice, NE Distribution Center will be going through a major RESET on November 22nd, 23rd and 24th. This reset is designed to help streamline all distribution activities in the plant to ensure a higher level of efficiency and effectiveness in our processes, product locations, and teammates. The ultimate goal is to produce a Best-In-Class distribution facility that will result in superior service to our customers.

As one might imagine, redesigning processes, adjusting/moving shelving layout/flow, and a product location overhaul is a rather large project, and therefore will require that we **stop all stock order shipments** from the Beatrice location for the three days leading up to the Thanksgiving holiday. The project will take longer than those three days but doing the reset on that holiday week will minimize the impact and stress on our customers.

We will **continue to ship emergency orders** from Beatrice during this reset. Additionally, we will make every effort to process any required Beatrice stock orders through our other two locations when possible. Please note if Beatrice is your normal shipping point, and we divert your stock order to ship from Greer, SC or Las Vegas, NV, this is likely to add days to your shipment arrival date so please plan accordingly.

We realize there is no great time to disrupt shipments, but we are making every effort to minimize the impact to our customers. We deeply appreciate your patience and understanding as we work through this process that, in the end, is designed to provide improved distribution services to you!

Neapco has been Manufacturing Driveline Solutions® in the USA since 1921. We thank you for your continued support of genuine Neapco® products for 100 years. We do appreciate your business each and every day!

If you have additional questions, please contact your respective Neapco sales representative.

Tim Goode

Vice President Sales and Marketing

Neapco Drivelines Aftermarket Group
