Bulletin #: Bul-Gen-622-043

Subject: **Two-Week Closure of Greer D.C. for Reset**

To: **All Neapco Drivelines Aftermarket Group Customers**

As part of our Excellence in Service and Continuous Improvement initiatives, our Greer, SC Distribution Center will be shut down from July 3<sup>rd</sup> through July 17<sup>th</sup> to do a full reset of inventories, process flows, and other shipping elements. The expansion in business flowing through Greer has increased significantly. This rapid increase is driving the need to expand shelving and inventory levels, reset inventory locations to improve process flow efficiencies, and adjust the overall layout of the facility to be more efficient, effective, and responsive to customer needs. Doing this will help us to better serve the Greer customer base going forward.

**HOWEVER**, we have put programming and processes in place to redirect all orders that would normally ship from Greer, to automatically ship from our Beatrice facility, during this two-week period. We do not anticipate any abnormal delays in processing your orders through the Beatrice facility.

Shipments will resume out of Greer starting July 18<sup>th</sup>, and we expect our performance to have a noticeable positive impact.

We appreciate your patience during this short reset, and as always, we thank you for your continued support of genuine Neapco products. We do appreciate your business!

If you have additional questions, please contact your respective Neapco sales representative.

Tim Goode

Vice President Sales and Marketing

Neapco Drivelines Aftermarket Group
