Subject: Neapco Expands OE Series U-joint Portfolio – N350/SPL®350 Series Applications

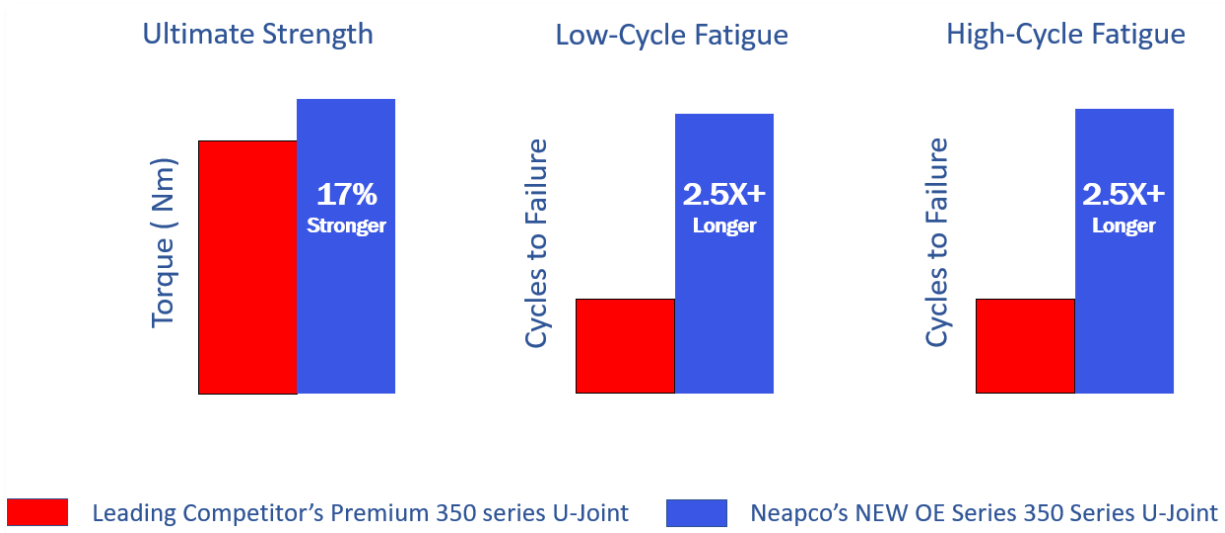

To: All Neapco Drivelines Aftermarket Group Customers

Neapco is pleased to announce the availability of a new *Neapco OE Series Universal Joint* designed for N350/SPL®350 series applications. Neapco part number 6-0350 is designed, engineered and manufactured to be an exact OE-style press fit u-joint with premium performance. The addition of Neapco part number 6-0350 combined with our previously announced 6-0170 and 6-0250 part numbers, gives Neapco customers a full offering of OE-style u-joints for heavy-duty SPL applications.

Part Number 6-0350	Driveline Series N350/SPL®350 series
Application Commercial vehicle	Bearing Type OSR - ROUND-NPL/ROUND
A1 Lock-up (In) 6.767	U Joint Brg. Cap Dia. in Axis 1 2.561
A2 Lock-up (In) 6.767	U- Joint Brg. Cap Dia. in Axis 2 2.561
Lube Fitting Location 1 Lube Fitting (in cross)	

Neapco N350 series u-joints have been **tested and proven** to meet or exceed OE Performance Specifications. Initial results from our testing shows Neapco N350 u-joints outperform the leading competitor’s product in Ultimate Strength, High-Cycle Fatigue and Low-Cycle Fatigue:

Important Bulletin from Neapco Drivelines Aftermarket Group

ATTENTION: PLEASE READ

The new Neapco heavy-duty N350 series u-joints provide undeniable advantages:

- **HOT FORGED CROSS** heat treated to proprietary levels to provide optimal strength and endurance for the intended, specific application.
- **PRECISION GROUND JOURNALS** provide exceptional strength, durability and load distribution to extend life.
- **PREMIUM SEALING SYSTEM** with needle bearing retainer to keep lube in and environmental contaminants out, while holding needle bearings in optimal position for peak performance and extended life of the joint.
- **PRECISION ENGINEERED, EXTENDED LENGTH NEEDLE BEARINGS** that enhance load distribution and durability for extended life.
- **GLASS IMPREGNATED NYLON THRUST WASHER** eliminates metal to metal contact between the bearings and the cap, to minimize heat and maximize life.
- **PRECISION GROUND BEARING CAP OD** for exact OE press-fit into the yoke.
- **OE-STYLE SNAP RING RETENTION SYSTEM** holds the bearing caps in optimal position for peak performance.

The full family is now available from Neapco:

N170 Series – Part# 6-0170

N250 Series – Part# 6-0250

NEW - N350 Series = Part# 6-0350

Please note, we still offer the in-field fix option for these applications (Part # 6-1170 and Part# 6-1250).
