Subject: **N7723-SFG Unwelded Driveshaft Superseded to N7723-SFP**

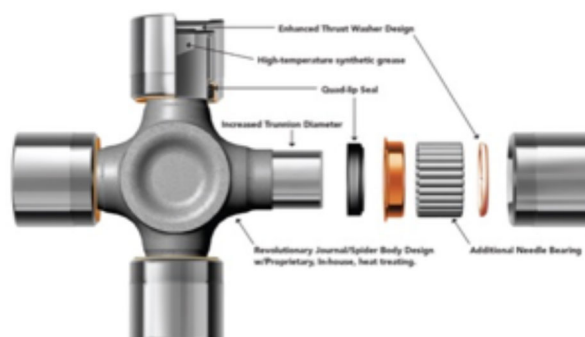

To: All Neapco Drivelines Aftermarket Group Customers

For those high-torque, difficult to service, flywheel-driven PTO applications, Neapco is pleased to announce that our popular N7723-SFG unwelded driveshaft kit has been upgraded to now include our maximum strength **Performance-Series** u-joints. Effective immediately the N7723-SFG had been superseded to **N7723-SFP**. In addition to this improvement, for ease of installation, the N7723-SFP continues to be provided with two N3-2-119 flange yokes. Complete bill of materials:

Part Number	Description	Quantity
2-0053P	Universal Joint	2
N3-2-119	Driveshaft Flange Yoke	2
N3-28-47	Drive Shaft Tube Weld Yoke, Outside Lock-Up	1
N3-3-598KX	Driveshaft Slip Yoke	1
N3-40-1471	Driveshaft Stub Shaft	1
ND3A	Driveshaft Dust Seal	1

Covering 1310-1550 series applications, Neapco Performance Series Universal Joints are the next generation of u-joints and outperform the leading competitor's joints in ultimate strength and fatigue tests. Neapco Performance Series U-joints achieve this exceptional performance by paying close attention to the details that make big differences!
